Teacher Professional Development platform

A holistic platform for training, sharing and management of teaching-learning resources

Vision

Realising education's promise to -

Develop teacher proficiencies in creating engaging and efficient online teaching-learning ecologies.

Create schools as self-sufficient centres of tech-enabled teaching-learning ecosystems.

We aim to -

Accredit teachers - to make them prime movers to design an enabling teaching-learning ecosystem.

Assess learning - to design, measure and track learning outcomes for focussed action.

Act on evidence - to use evidences of learning leading to innovation, contextualised practices and building a *Community of Practice*.

Align factors - to make a holistic intervention by integrating pedagogy, technology and curriculum.

We offer Teacher Professional Development through:

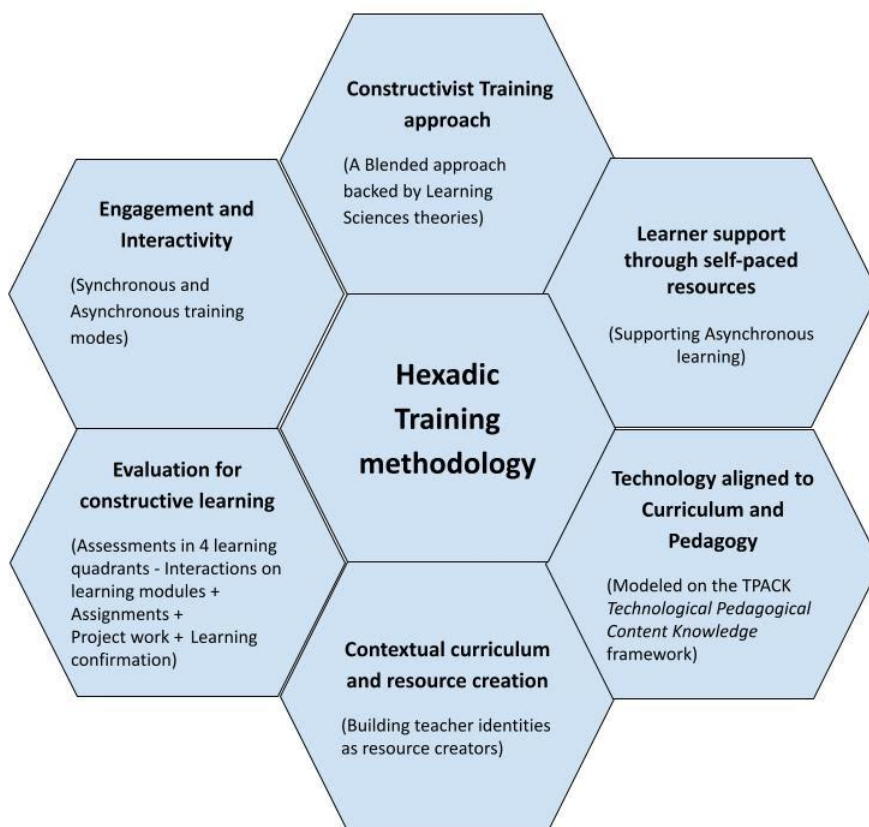

- Redesigning the teaching-learning ecosystem with an authentic technological proficiency and sound pedagogical grounds.
- Holistic training in Online Digital Pedagogy – Marrying 21st century teaching and learning with learner-centric pedagogies.
- Guided, process-based, practical approach by developing competencies in:
 - Blended teaching-learning pedagogies,
 - Designing enabling, interactive and collaborative classroom ecologies,

Scaffolding personalised and adaptive technologies to support learning opportunities anywhere, to anyone, at any time,

Development of teachers as creators of diverse and contextualised learning resources.

Creating 'communities of practice' as a self-sustained teacher development model

Cognitive architecture of the training programmes

Teacher Professional Development products and services

- **Teacher training courses**
 1. Competency-based certification courses
 - a. [How to effectively teach online](#)
 - b. [ICT for teaching learning](#)

- c. [Tech-enabled teaching-learning ecosystem](#)
 - d. [Low bandwidth, high output teaching](#)
2. Customized offerings
 - a. [Variegated Bouquet offerings](#)
3. Ed-tech trainings
 - a. [Google for Education](#)
 - b. Personalised teaching-learning with Geneo @ Schools
 - c. Digital Assessments in teaching-learning with LinQ
 - d. Learning Management System in teaching-learning processes
 - e. Designing Smart classrooms supported by KYan
4. [Holistic School solutions](#)
5. Academic audits

- **Teacher training portal with LMS**

A versatile and self-contained teacher training portal with an integrated Learning Management System to be used for online teaching-learning purposes.

- **Adaptable Assessment platform - LinQ**

Flexible and adaptable assessment platform to suit the specific needs of the school/teacher.
